Greenwood Journal. Saturday's game was worth while from every standpoint. The crowd was the largest of the season thus far and the team played beyond question that they have really gotten together.

Manager McPherson's shift in the line-up was perhaps responsible for the improved playing. Smith played first, Galvez went back to center and Autrey was shifted from third to short. With this change the boys fielded in fine shape and batted better.

They secured only 15 hits off two Anderson pitchers, and one of them was a left-hander, a bugaboo to a good many fans because the local team has six left hand hitters.

Of course "Babe" Adams starred again. He fanned 15 men, allowed just exactly no hits, and fielded his position superbly.

however, caused little short selling. Cotton futures closed steady: July 13.14; August 13.03; October 12.61; December 12.50; January 12.52; March 12.61.

Shows That He Was Not Tainted With Republicanism. Charleston, June 22.—Jas. L. Sims, United States marshal, has written a letter to a Charleston paper denying the charge of Governor Blaise that Mr. Sims did any other kind of work than merely mechanical for a republican newspaper in 1876.

While we did not support E. E. Bowen, of Groer, for president of the Southern Textile Association we recognize the fact that the work done by him in behalf of the association entitled him to that position and we pledged him as president our support and co-operation.

W. M. Sherard was elected vice president of the Southern Textile Association and will one year from this time become president of the association. He will be elected president because of his eminent qualifications for that position and not because of the fact that he is vice president.

To Get Rid of Red Ants. Red ants can make a house almost uninhabitable. One can get rid of them; however, if one knows how. The first thing to do is to find the place they come from—i. e., where their nest is. If it be in an accessible spot, a little kerosene will quickly stop the trouble.

New Orleans Cotton. New Orleans, June 22.—Talk of high temperatures in the belt around bullish sentiment in the cotton market today and prices were put up 10 to 15 points over Saturday.

The close was 9 to 11 points up. Crop accounts were favorable on the whole, and bears called attention to the fact that farmers everywhere were pushing work in the fields under the best of conditions. Bearish comment.

Rock Hill, June 22.—The Winthrop Summer School opened its regular session Tuesday with the largest attendance in its history. The preliminary enrollment and assignment of rooms was nearly six hundred, and exceeded the total attendance of last summer. The larger part of those students are on hand and at work in classes, while new students are arriving daily.

A gratifying feature is the distribution of the work among the various departments, all the classes being full. Especially noticeable is the enrollment in the high school courses at one end of the course and the problems of rural schools at the other.

The weather has been delightfully cool, and the northern teachers are commenting on Rock Hill as a summer resort.

Great interest is shown in Mr. Graves' excursion to Asheville on June 30th, for which tickets are now on sale, and the later one to Niagara Falls and the Mammoth Cave. Mr. Graves is receiving letters each day from parties over the State in regard to these excursions.

Dr. Edward James Banks of the University of Chicago, has delighted the summer teachers this week with his illustrated lectures on research in the ancient lands of the east, and all are looking forward with interest to a series of lectures next week by Dr. Baillet, Dean of the Department of Education in New York University.

The large number of teachers who were delighted with Dr. Baillet's lectures last summer consider this one of the distinct features of the Summer School.

Beginning next Monday there will be a conference of the County Superintendents of Education at the College and at the same time a meeting of the Rural Supervisors of the State. The meeting of these workers, with the influence of the Summer School, is one of the distinct features of inspiration in the educational work of the state.

The line of work is meeting with recognition in other states, also, as two Rural Supervisors have just been elected in Wake County, the capital county of North Carolina, both of whom are Winthrop graduates.

The prize winning girls of the Tomato clubs in each county are to be the guests of the college for a special two week's course of work, beginning July 2nd, and extensive preparations are in the making for their entertainment and instruction.

The Orangeburg Chapter of the Winthrop Daughters has just established a scholarship at Winthrop College for the regular session. This, with other scholarships offered during the past year, offers still greater opportunities for worthy girls to secure an education.

Work is progressing rapidly on the new dormitory extension, and about forty more girls can be accommodated next year.
